Upside Down Friday 13th For a Local Motorist

Friday the 13th wasn't exactly unlucky for one Granite Cityan, who narrowly escaped serious injury early Friday morning when his 1965 "Scout" auto was flipped over and landed upside down on 18th street, near the Delmar avenue intersection.

Unhurt in the freak accident was the driver, William A. Rynd, 47, of 22 West Wilson Park drive, who told police he had halted at a stop sign and was turning left from Delmar onto 18th street when another vehicle struck his car.

Flipped into the air, the compact-size vehicle turned over and landed upside down in the middle of the roadway. Rynd got out of the car unassisted.

The driver of the second vehicle, who fled the scene, is being sought by police. The usually busy downtown intersection was virtually deserted when the accident occurred at 6:30 a.m. Friday.

Fire department personnel were called to hose spilled gasoline from the street and a tow truck righted the overturned vehicle and towed it away. The Scout was damaged extensively on the right side, top and left rear.

Rynd was reminded by friends there's another Friday the 13th next month.

2 Bandits Caught In 10-Mile Chase And Gun Battle

\$535 Loot from Cionko Mkt. Recovered; One Man Escapes in Woods

Two armed bandits were captured after a 10-mile, high-speed chase and running gun battle with Granite City police Friday night following a \$535 stickup at Cionko's market, 2001 Madison avenue.

Patrolman Richard Woods played a hand-which proved correct and resulted in the apprehension of two of the three bandits on Route 203 (Old Alton road) near the Hartford canal.

Officer Woods was at the police station when the call on the holdup was received at 7:50 p.m. He figured the bandits would flee over 25th street and through North Granite, rather than battle the heavy Friday evening traffic on Nameki road.

He was right, and taken into custody after the chase were Charles W. Hatfield 40, of Alton, and Terry A. Griffin, 30, of Cottage Hill. Both were charged with armed robbery and attempted murder, and Hatfield also faces traffic charges of disobeying a railroad signal, reckless driving and disobeying a stop sign.

A masked bandit pair entered Cionko's through the front door and held a sawed-off, double-barrel shotgun on Mrs. Cionko, wife of the proprietor, forcing her to hand over the money. Mr. Cionko, who was behind the meat counter, was unaware of the stickup until his wife screamed across the middle of the lake. Mrs. Newingham had gone out about 10:30 a.m. to burn the trash.

department rescue squad and Pontoon Beach police who were summoned by a neighbor, Mrs. Marie Leonard.

Mrs. Leonard said she saw something floating in the lake about 10 a.m., but it was not until noon that he looked out again and saw Mrs. Newingham floating face down in the middle of the lake. Mrs. Newingham had gone out about 10:30 a.m. to burn the trash.

"I figured something was wrong when the truck stopped up after the men saw the patrol car. I turned on the red lights and siren and went after the truck west on 25th street," Woods told the Press-Record.

At the railroad tracks, the truck left the roadway and pulled up behind a shed in the rail yards. Woods followed and got out of his car. The trio also fought a gun battle. Woods said a shot was fired at him, and when he fired back, the men scampered for the truck and backed it onto 25th street.

"I turned on the bright lights and spotlight on the patrol car. I went about a quarter of a mile past me firing another shot that hit the rear of the car," Woods said.

Chase on Highway

The truck fled around lowered railroad tracks. "I chased them through North Granite. They ran the stop sign at Nameki drive and Route 3 and fled almost to the north. We exchanged several more shots as the chase continued," Woods said.

He also was reloading headquarters on location, and other police cars were joining in.

Woods followed the truck to the Hartford canal bridge, where the bandit trio made a quick right turn onto Route 203. It went about a quarter of a mile and stopped.

"I stopped, too," Woods continued, "and got out of the truck. The bandits exchanged shots again. A section of chrome trim on the front of the truck's car hood was hit by gunfire."

"They then fired a shotgun at me," Woods added, "and got back the truck and headed south." Woods lost his hat during the gunfire exchange, but it was later found.

Other officers were arriving, and the bandits' shotgun was thrown out of the truck. It was found by Deputy Bravley, assistant police chief from Venice who arrived to assist.

Officers Erwin Keenbott and Peter Handelson passed Woods in other patrol cars, and after going about a mile saw the truck stop again and the men jump out and run.

The officers fired several shots, and Hatfield and Griffin surrendered to Keenbott, Handelson and Woods. A shotgun blast was fired at the fleeing U. S. Secretary of Labor George P. Shultz; and one member appointed by Gov. Ogilvie. Each

MORE ABOUT
Maeras

at Washington University from 1932 through 1939.
While he was attending college, Maeras was employed by Southwestern Bell Telephone Co. at St. Louis from 1935 to 1937, Barber Asphalt Co. from 1937 to 1939 and the Madison Coal & Feed Co. as salesman and accountant from 1939 to 1939. During 1939 he became resident auditor of the Chain of Rocks bridge in association with Wick Howard, auditor of trustees of the bondholders.

Formed Partnership
Maeras became general accountant at the General Steel Castings Armor Plant in 1942, a post he held until 1944 when he formed a partnership with Frank Fijan in operation of an insurance business the two of them since had conducted as partners.

Meanwhile, in 1936, Maeras made his first venture into politics, campaigning that year for membership on the Madison board of education. He was defeated.

He was elected to the school board the following year, however, and continued to serve on the board six years, losing election in the meantime — in 1939 — to the Madison village board of trustees.

When the village of Madison was incorporated as a city in 1942, Maeras was elected the city's first mayor. He has been the only mayor to hold the office since, having been elected to seven consecutive terms. He last was re-elected in April last year and at the time of his death had served nearly 28 years in the mayor's office.

700 Pay Tribute
Mayor Maeras was the guest of honor at a testimonial dinner sponsored by Madison businessmen and civic leaders, marking his 25th anniversary as mayor of the city. More than 700 persons attended the affair to pay tribute to the mayor.

Mayor Maeras also was a director of the Tri-Cities Chamber of Commerce, a member of the Executive and Legislative Committees of the Southwestern Illinois Conference of Mayors and a member of the Planning Commission.

He was a past president of the Madison Rotary Club, a director of the Madison Lions Club and Madison Chairman of the Tri-Cities United Fund for more than 20 years. He was a director of the First National Bank in Madison.

He also was a member and past president of the Madison district, Boy Scouts of America; a member of the board of directors of the Granite City YMCA, a member of the Independent Order of Odd Fellows lodge 1031 of Madison and a member of the First Methodist Church of Madison.

JOHNSON & JOHNSON. Red Devils' brothers Andrei (44) and Doug (30) Johnson take a rebound away from a Bunker Hill player during Venice's squeaky, 64-62, victory Friday over Bunker Hill.

Devils Down Bunker Hill, St. Paul Fives

Red Devil cagers upped their record to 16-7, edging strong Bunker Hill 64-62 Friday at Venice and winning 82-55 at St. Paul of Highland Saturday.

On Tuesday at 8 p.m., Columbia will be at Venice for what probably will be an advance showing of next week's semi-final game at the O'Fallon district tournament.

Fessor Gray gave the Devils the winning margin over Bunker Hill, sinking two free throws with 11 seconds on the clock.

Venice led 15-12 and 30-28 at the quarters and then trailed 45-42.

"At times," Coach Bill Ohlendorf noted, "we had six- and eight-point leads, but just couldn't put it away. We tried to think things to happen instead of doing it. After the third period, Cedric Gardner brought us back to life with several baskets."

Scoring honors went to Gardner with 20 points. Doug Johnson had 14, Gray 12, Jim Ohlendorf four and Andrei Johnson and Herbert Buford, each two.

Venice rolled over St. Paul with quarter leads of 16-9, 36-25 and 58-43.

Tallying were Gardner 29, Gray 25, Andrei Johnson 15, Doug Johnson six and Buford, Ohlendorf and Daughterty, two apiece.

Mathews lost in overtime 128-125 to the Ulysses Ten Sunday in the Wohl Senior Men's Basketball league in St. Louis. Ahead 83-88 at halftime, Mathews later led by 14 points but time ended with the score 111-111.

Finishing regulation time with only four players, Mathews played much of the overtime with only three because of foul problems.

Local scorers were Ken McBride 36, Al Tapley 26, Elmer Wortham, Jack Salich and Carl Wortham 18 each, Rich Patrick nine and Dan Graeville, six.

Also scheduled indoors are: 3:30 p.m. Feb. 27, St. Louis Relays at the Armory; 3:30 p.m. March 6, Armory Relays at the Armory; noon March 14, West-ern Illinois invitation at Macomb and March 25, Normal Invitational at the Illinois State U. Arena.

Miller titles Twietmeyer "the team's dark horse." Twietmeyer, working with Allen, is showing great improvement over his 1969 performances in hurdle races.

GCHS Works Overtime To Defeat Wood River

Defense was the winning factor for the Warriors in their 74-72 overtime win over Wood River here Saturday.

In the fourth and overtime periods, GCHS stole the ball from the stalling Oilers enough for the Warriors to get off 22 field attempts and sink 11.

Wood River, during the same

interval, put up only nine field attempts.

Jeff Boyles, after sitting out the first quarter, led the win with 20 points. Dave Melzer returned to early season form and had a 19-point evening.

Steve Harris scored 14, Terry Ripka and Tim Moore six each, Mike Dekuntz four, Joe Wallace three and Greg Jones, two.

Hitting only three of 15 field attempts during the opening period, Granite City trailed 14-10.

For the game, GCHS hit 27 of 67 while Wood River meshed 27 of 46. At the other quarters, the Warriors were down 34-27 and 54-46.

With two seconds remaining in regulation time, Wallace hooped his second of two free throws to send the contest into overtime, 68-68.

Granite City will next visit Alton Friday and Belleville Saturday.

The Rev. Louis Schlangen performed the late afternoon ceremony at 5:30, and a reception followed in St. Mark's Church hall in Venice.

A floor-length gown of white was worn by the bride. It was styled with a fitted bodice and short sleeves with lace trim. Lace and sequins also trimmed the skirt front. The bride held a bouquet of white carnations, red sweetheart roses, lilies of the valley and greenery.

Miss Lana Dahhaus was maid of honor, and Miss Paula Doolin, Miss Elizabeth Saputo and Miss Theresa Lane, the bride's nieces, served as bridesmaids. The honor attendant was in a floor-length dress with an Empire bodice of red velvet and a pink crepe skirt. She carried a bouquet of white carnations, pink roses, lilies of the valley and greenery.

The bridesmaids were similarly attired, except for the skirts of their gowns which were of red crepe. Their bouquets were red tipped carnations combined with lilies of the valley and green leaves.

Anita Wiesehan, the bridegroom's niece, was flower girl, and Tommy Kreh, a nephew of the bride, carried the rings. The former wore a long pink dress with short sleeves and an A-line skirt. She carried pink and red flowers in a white basket.

Edward Wiesehan Jr. was best man, and Harold Wiesehan, and Donald Wiesehan, brothers of the bridegroom, Steve Holden, Gordon Dunn and Craig Mask, made up the list of groomsmen and ushers.

MR. AND MRS. CARLUS L. MITCHELL. They were married Saturday evening at Tri-City Park Tabernacle.

Miss Sarah Donna Bone, Carlus L. Mitchell are Wed

Tri-City Park Tabernacle was the scene of the wedding Saturday evening of Miss Sarah Donna Bone, a daughter of Mr. and Mrs. James E. Rushing, 2065 Thirteenth street, and Carlus Lee Mitchell, whose parents are Mrs. Reta Mitchell, and the late Carlus Mitchell, 1311a Nineteenth street.

Lighted candles in candelabra, and white satin bows on the pews along the aisle, provided the setting for the ceremony performed at 7 o'clock by the Rev. John Polizzi. A reception was held directly afterward in the church hall.

Mrs. Alan Johnson, organist, accompanied the soloist, Randy Hildreth, as he sang "Wedding Prayer" and "Hawaiian Wedding Song."

Given in marriage by her stepfather, the bride chose an informal Chantilly lace gown reminiscent of the romantic period. The molded bodice had a Sabrina neckline trimmed with lace. Medallion appliques, and long traditional sleeves of lace.

A bouffant skirt was worn over a hoop and tier upon tier of cascading ruffles fell gracefully to the hemline, forming a cathedral train.

A lace and seed pearl waterfall type headpiece held in place a melody length veil of imported silk illusion. The bride carried a teardrop bouquet of white carnations with white satin streamers.

Mrs. Frank Anderson, a sister of the bridegroom, was matron of honor, and Mrs. Danny Bone, the bride's sister-in-law, and Miss Betty Bone, a sister, served as bridesmaids.

Debbie and Cheryl Rushing, young sisters of the bride, were flower girls, and David Anderson, the groom's nephew, served as ring bearer.

The honor attendant was in a gown with a lipstick red velvet Empire bodice, brief cap sleeves and a white crepe skirt. She wore a red velvet headpiece and carried white carnations tipped red.

The bridesmaids were identical gowns with white Venice lace skirt waists featuring high necklines and small covered buttons down the front. Bishop sleeves had fitted cuffs and the A-line skirts of chiffon were accented with satin bows at the front waistlines. Their headpieces were of red velvet and they carried red tinted carnations.

Dressed in red velvet frocks trimmed with white velvet sashes and bows, the flower girls had red velvet ribbons in their hair. They carried red roses in small white baskets.

For her daughter's wedding Mrs. Rushing selected a pink satin dress with hand sewn pearl trimming at the neck and a corsage of pink Sweetheart roses. The bridegroom's mother was in an eggshell knit costume and yellow roses pinned at her shoulder. Both mothers wore black accessories.

Jack Mitchell, a brother of the groom, was best man, and Frank Anderson, Voyle Rushing, the bride's brother, Tom Welsh and Jimmy Harris made up the corps of groomsmen and ushers.

Pre-Schoolers to Get German Measles Vaccine

A total of 13,400 shots of German Measle vaccine will be available in March, sufficient to inoculate all Quad-City pre-school youngsters, along with children in the kindergarten through third grades, Milton Morris of Venice, a member of the Madison County March of Dimes Association, announced Friday. Morris said the quantity of free vaccine now promised for distribution in Quad-City schools has been doubled from the earlier announcement. Initially, the inoculations were to be given to children in kindergarten to the third grade level. Inoculation day in Madison and Venice schools is planned for Tuesday, March 10 and in Granite City schools Wednesday, March 11. Pre-school children, 12 months and over will be served at neighborhood schools on the same dates, under the current plan, Morris said. The increased supply of vaccine was reported to area representatives at a special meeting Friday in the East St. Louis public health office. Morris said. James Denno, a federal employee assigned to work with the Illinois State Health Department, made the announcement. All vaccine, supplies and technicians will be furnished by the state, and local physicians have volunteered their services to oversee the day-long project. Dr. Felicia D. Koch is in charge of coordinating schedules for the participating doctors, Morris said. Special committees of volunteer workers currently are being formed in each local community to assist in the inoculation program, under the personal supervision of the three mayors. Bargains Galore as Strike Closes Kroger's
Customers at the Kroger grocery store Friday found unexpected bargains on meat and other perishable items at what management termed as drastic reductions in prices. The store sold out its perishable produce in preparation to closing on Saturday in the face of a strike by Teamsters Local 610. Pickets were on hand here Saturday and again this morning, according to Joseph Petreff, store manager. The strike against Kroger stores in the two-state metropolitan area was called because of disciplinary action taken by the company against an employee, according to a union official in St. Louis. Involved in the strike are 156 truck drivers and more than 100 inside dairy employees who are members of Teamsters Local 603. The labor contract with Local 610 expired Jan. 10 and among terms under consideration for a new agreement is wages which currently are \$4.06 an hour.

Details on the second annual doubles ping pong tournament to be held at 1 p.m. March 1 were announced by Fred Tritschuh, athletic activities chairman. Trophies will be awarded to the winners, and food and refreshments will be served.

He also announced a postponement of a sports banquet until late April. A guest speaker is to be arranged.

Jack Tritschuh, general program chairman, reported a tentative date of March 15 for the council's annual spelling bee for parochial schools in the Quad-Cities, and announced that the second annual "Saints vs. Sinners" basketball game to benefit Newman foundations in the state will be held March 20 at the Nameeki gym.

The annual Madison county K. of C. bowling tournament will be held March 22 at Wood River.

Dr. John Vasiloff reported that a band has been obtained for the next New Year's Eve party, and the county authorized Edwards Lenz sr., and Charles Parkison sr. to obtain toys for the children's party and for charities for the Christmas season.

River Festival Begins Contracts For Performers

Contract negotiations with performers for the 1970 Mississippi River Festival have begun, Peter Paszich, manager of the St. Louis Symphony Society, has announced. Simultaneously, a public campaign to raise \$75,000 in underwriting for the festival is under way in the St. Louis metropolitan area.

The 1970 season is planned to begin June 20 and run through Aug. 9.

The St. Louis Symphony Orchestra is expected to play a series of weekend concerts, with rock, pop and folk artists performing on week nights.

This year's festival will be sponsored by Mississippi River Festival, Inc., a non-profit corporation with headquarters at Southern Illinois University, the St. Louis Symphony Society and the public.

Trustees of SIU have agreed to provide \$75,000 for the festival, and permit use of the site on the southwestern campus, if public subscriptions total \$75,000.

It was reported last week that \$30,000 of the \$75,000 public subscription has been paid or pledged, and plans call for the \$75,000 figure to be reached next month.

Community leaders seeking pledges are Dr. Albert Trtjan and Bank President Ernest A. Karandeff in Granite City, who are hoping to collect \$15,000.

2nd Homemade Bomb Explodes at Drive-In

Another homemade bomb was exploded in the rest room of McDonald's drive-in restaurant, 1515 Johnson road, causing some damage. It was reported by the manager at 12:35 p.m. Thursday.

It was the second to explode in less than a day as a bomb consisting of three to eight M-80 firecrackers went off about 5 p.m. Wednesday in the canned goods section of Bellemore Tri-City Grocery, scattering canned goods and damaging labels.

The explosion at McDonald's was caused by the same type of bomb, authorities believed. It was lodged in a towel dispenser, which was blown off of the wall. The wall and a commode seat also were damaged.

Forty-five minutes after the explosion, the drive-in manager received a telephone call from a person with a low male voice asking how he liked the blast and announcing that before the day was over another bomb would go off.

A similar type call then was received by Tri-City Grocery. Police are investigating.

22 Quad-Cityans to be Drafted on Friday

A group of 22 Quad-Cityans is to report on Friday to the county selective service board in Edwardsville for a armed forces induction. Earlier this month, 15 youths underwent pre-draft physical examinations on Feb. 6.

So far this year, five local men have been drafted, reporting Jan. 22 for induction. March quotas have not yet been received.

Several local businessmen are members of NAA's St. Louis Chapter, which is headed by Frank A. Presker of Diversified Metals Corp., as president.

'Happy 21st Birthday, Johnny'

(National Institute of Mental Health)

At least, we hope it's happy. Johnny's string out on "speed," and most people take him for about 35.

He's shooting "meth" now, but he started on pills: "dixies," "benzies."

He has to use a little more each day to maintain the "high" and avoid "crashing."

It's as though he were a car that's raced its motor continuously for a year. No wonder he looks like he's ready for a 30,000-mile overhaul.

You see, on "speed," you don't eat, you don't sleep, you

don't feel you have to pay any attention to your health. You because you feel so "up" all the time.

So while you're "up" on speed, your body runs down. Johnny raps all the time about how, since he's started "speeding," he's really living.

At this rate, he may have lived his whole life before he reaches 22.

Goal of 'New Illinois'-Government In Forefront of Progress Instead Of Lagging a Generation Behind

By GOVERNOR RICHARD B. OGILVIE

I have stated that there is evidence of declining faith in the American political process and a need for Constitutional changes so that Illinois state and local government can provide services more efficiently.

But however great the need for future action, I am happy to tell you that our effort to bring new vitality to local government in Illinois has already begun.

We took important steps in that direction this past year. I would like to briefly mention just two of them.

First, we initiated an historic tax-sharing system which will guarantee a new era of financial independence for city and county governments.

One-twelfth of the revenue from our new income tax was returned each month to these units of local government on a per-capita basis with no strings attached.

These means that local officials and not someone in Springfield — can decide whether to use the money to improve schools, to build a new fire station, to hire more policemen, to build new sewage treatment facilities or to improve city streets.

In many cases, local officials have elected to reduce their burdensome local property taxes. I hope this example will spread to localities throughout the state.

Second, a pledge which I made during my campaign was realized with the creation of a new Department of Local Government Affairs.

With the distinguished former Mayor of Peoria as its director, this new agency has come into being.

Already, it is developing programs and ideas certain to revitalize our units of local government.

It is important to remember that this is a service arm of state government, designed only to assist local officials in developing new administrative systems, or in participating in state and federal programs, or in stimulating new town planning.

We are creating a New Illinois — a state in which government will be in the forefront of progress instead of lagging a generation behind.

And in the New Illinois, we accommodate.

Housing Authority Taking Steps to Meet Demand for More Apartments for Elderly

The decision by the Granite City Housing Authority to proceed with an application for 200 more apartments for the elderly is a sound move. The need exists, as shown by a backlog of hundreds of requests for public housing by local couples and individuals who have no other choice.

There is a good chance that regional federal authorities will see no conflict in this project and in current national efforts to curb inflation, in view of the time required for preparation of detailed plans and specifications. Even if there was an immediate "green light" from Chicago and Washington, construction could not begin for a number of months, by that time the cost spiral may have been brought under control.

If a high-rise development can be located within a short distance of downtown Granite City, it can aid measurably in anchoring and bolstering the central business district, where planning currently is in progress for a mall, semi-mall and other improvements.

Such a site also would be convenient to St. Elizabeth Hospital, city offices, courts and other services.

Move to Let 18-Year-Olds Vote Recognizes Their Idealism, Knowledge and Enthusiasm

In proposing Illinois Constitutional reduction of the present minimum voting age of 21, State Auditor Michael Howlett last week noted that the 18-year-olds of 1970 are "better educated, better informed and more mature than young people of 21 were when the 1870 Constitution was written."

"Today, nearly all 18-year-olds have a complete high school education. In 1870, hardly any 21-year-old had a complete high school education. Fewer than seven in 100 boys and girls aged 14-17 were in school; today, more than 93% are in school. It should also be said that young people, both boys and girls, at 18 are better informed today than women were at 21 when they obtained suffrage in 1920."

There is no question but that people of all ages have more knowledge, thanks to the tremendous changes in education and newspapers, the advent of radio and television and the gains in technology in general during the past century.

The question facing "con con" delegates and the public is whether there have been equal advances in understanding and judgment. We lean toward the belief that the younger generation is becoming wise as well as smarter, despite current extremes of conduct which last week prompted the Vice President to accurately call some youths a "zoo" of radicals with "no manners and less sense."

Auditor Howlett made the additional point that "the idealism and enthusiasm of youth would be a good influence in our government. It also would encourage teenage reformers and dissenters to use our democratic processes to strive for their ends instead of more dramatic but less effective protests."

The young do react honestly and passionately to issues as they see them, which is a plus; they deserve respect and confidence in this regard. The minus is that in reacting before enough facts are in, one can find himself on the opposite side of what may prove to be logical, constructive and fair.

If the voting age is lowered, it will become even more essential than now that pre-21s receive truly accurate and balanced information.

'Nothing Greater or More Inspiring ...'

"I had been wanting to name a marigold in honor of Senator Dirksen but until now never thought I had one good enough," David Burpee of the W. A. Burpee nursery in announcing that a new golden hybrid named after the late U. S. Senator from Illinois will make its first public appearance at the Chicago world flower and garden show March 7-15.

Burpee has devoted more than a half-century to development of an outstanding marigold. His desire for perfection before designating a larger, gold-yellow bloom as the Sen. Dirksen Marigold is understandable, since it was the favorite flower of the senator. Mr. Dirksen was a noted gardening enthusiast and never lost an opportunity to extol the virtues of the marigold.

Word of the Chicago event is of interest here because of Quad-City's acquaintanceship with the former Senate minority leader and because his address to fellow legislators on the marigold in February 1969 ranks as one of the best examples of, shall we say, the "flowery" oratory for which he will be remembered.

It is actually an American native flower and really not native to any other place on earth. It is grown in great profusion in every one of the 50 states, and strangely, is not the official flower of any state. I class it, therefore, with the American eagle when it comes to a symbol of our country that manifests stamina. And when it comes to beauty, I can think of nothing greater or more inspiring than a field of blooming marigolds tossing their heads in the sunshine and giving a glow to the entire landscape.

The flower was his greatest love next to his country, family and constituents. His long efforts to have the marigold named the national flower emblem did not succeed but the cause will live on, aided by the Dirksen Marigold, considered one of the strongest and prettiest of all the varieties.

Fox Firm to Restore 'Queen of the Seas'

Nobody is likely to find Sam Fox, Madison industrial leader, lacking in courage or willingness to accept a difficult challenge. Twenty shipwrecks said it could not be done at reasonable cost, but Fox Industries has acquired and will endeavor to repair the damaged replica of the Santa Maria, flagship of the voyage in which Columbus discovered America.

Battered and partly sunk by a violent windstorm here last summer, the authentically designed vessel is to be restored and placed on public display with part of the future proceeds allocated by Fox to the previous owners. We would bet he succeeds, testifying once again to the skill and ingenuity of Quad-City manufacturers and craftsmen.

No Income Tax Form? Pick One Up at Post Office, Bank, IRS Office

(Internal Revenue Service)

(Q) My tax forms came all right but my schedule did not, even though he is now working full-time. What should he do?

(A) A tax form package is mailed each year to everyone who filed a return the previous year. If your son filed last year, he should have received one by now.

If not, he can obtain 1969 tax forms and instructions at a local IRS office, post office or bank.

(Q) I'm single but I do support my niece who lives with me. Can I file as head of household?

(A) If your niece qualifies as your dependent, you may be able to file as head of household. Check your 1969 instructions for details.

(Q) If I seek outside help with my tax return, how should I go about it?

(A) Call your local accounting, legal or tax practitioner association and ask them for the names of qualified people. In choosing someone here are things to look for:

1. Avoid the man who "guarantees" you a refund.

2. Be on guard if he suggests the refund he sent to his address.

You are legally responsible for every item on the return even though someone else has helped you prepare it.

So, you should never sign a blank tax return or one that has been prepared in pencil.

Your advisor should sign the return, too, indicating that he helped you with it.

Be sure the return you file has the proper label on it that came with your tax form package.

The label can be lifted off the form it came on and put on another, if necessary.

Double check the information on the label for accuracy. Corrections may be made on the label itself.

How should I send my tax return?

(A) Send it to the IRS service center for your district. An envelope addressed to the service center was included in all tax packages.

If you have misplaced yours, look in the 1969 instructions after he leaves that area.

(Q) My son is in the service and last week he got his W-2 forms from a former employer. Does he have to file a tax return?

(A) Yes, if his income was \$600 or more last year.

His return also has to be filed to obtain a refund of withheld taxes even if income was less than \$600.

However, if he is stationed overseas, he has additional time to file his return.

Taxpayers out of the country have an automatic extension of time to file from April 15 to June 15 to file their return.

If your son is in Vietnam, his return isn't due until 180 days after he leaves that area.

The FORUM

OPPOSITION TO CHICAGO MAYOR IS VALID ISSUE

To the Editor:

I think your Jan. 19 editorial about Mayor Richard Daley's influence over and control of candidates for public office in Illinois is valid.

David Demaris, the author of "Captive City," reveals the extent of influence Mayor Daley has over the governments of Chicago and the state of Illinois.

The book is disturbing because the dominant theme is that Chicago government and politics also are influenced by organized crime.

I was disturbed when I saw Lieutenant Governor Simon's letter in which he stated that the issue in the race for state senator is not who can best fight Mayor Daley, but who can best represent the district.

After reading books like "The City of a Nation" and "Captive City," I feel that the interests of the 53rd District can best be served by one who does resist political institutions that are influenced by organized crime.

Gov. Simon called this a smokescreen issue but he gave what I consider superficial reasons for supporting Rep. Sam Vadalabene for senator.

I even smelled smoke when Simon used questions as "Which candidate will devote full time to the job?" to justify his position.

DISILLUSIONED DEMOCRAT

Devoting full time to the job does not necessarily make a person a competent legislator. There are some political hacks who state who devote full time, but not to serving the people.

The question of experience that the lieutenant governor uses as a basis for qualification to serve in public office raises some doubts in my mind, especially since Rep. Vadalabene has served in a representative district that is largely rural and agricultural and now he wants to represent a district that is largely urban, commercial and industrial.

With his rural experience, is he really qualified to represent a largely urban area, or will he further compound urban problems with rural solutions?

Finally, Lt. Gov. Simon states that on the basis of substantial issues, he will vote for Sam Vadalabene. I respect his right to his choice.

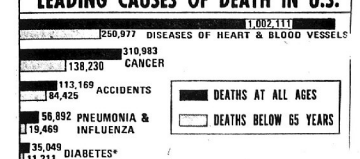

However, with the increasing revelations about the varied influences upon business, labor and government, I feel a more responsible choice could be made by examining Vadalabene's voting record and performance as a legislator.

With this rural experience, introduce and vote for and against? What is his record? I would like to know before he makes a choice.

Job Training, Placement, Bonds For Rehabilitation of Criminals

By JEROME E. ROSCOW

Assistant U. S. Secretary of Labor for Policy, Evaluation and Research

Our department's manpower experience is being used as a weapon in the war against crime. The Labor Department is taking increasing interest in the field of offender rehabilitation.

We have experimented with several successful approaches to offender rehabilitation through in-prison training, pretrial manpower services, job placement and bonding for post-prison jobs.

In large part, this is because the significant relationship between unemployment and crime represents a key intervention point in the life style of the offender.

The department is now carefully reviewing all of its present and past activities in this area to assess the experimental and demonstration projects, a pilot bonding program and the inmate training program.

We are examining new ideas for programs as well as means and means of creating additional knowledge that may contribute to the development of effective policies.

On a Clear Day, You Can See...

(American Institute of Physics)

When Dr. O. Wilfrid Bach looks out the window of his University of Cincinnati Medical Center laboratory and says, "It's a good day!" you know he sees fog, smog or haze — favorable conditions for the study of weather and air pollution.

In measuring the meteorological situation in greater Cincinnati, Dr. Bach finds he is also accumulating material for a pollution index.

"When you study weather in a city, you automatically learn about the pollution; the two cannot be separated anymore," Dr. Bach points out.

Using a unique approach to determining pollution by objective measurements of its effect on solar radiation, Dr. Bach is

developing a method to identify high, moderate and low pollution levels.

The Cincinnati skies, frequently shrouded with contaminants which weaken the sun's rays, provide a fruitful base for the study.

The National Science Foundation of Washington, D.C., has awarded the university \$58,000 to back Dr. Bach's studies.

He admits that almost everyone can tell when air is polluted: "We all know, of course, that it's not good to get into a smoggy situation to stick your nose out of a window."

However, sniffing, squinting and coughing will never pass as scientific proof — and such proof is needed before effective programs can be launched to prevent or control the increasing problems of air pollution.
